Art Unit: 1621

1. Claims 26-48 are pending in this application. The rejection of the claims under 35 U.S.C. 112, first paragraph is withdrawn in view of applicants' arguments and amendments.

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

4. Claims 26-45 are again rejected under 35 U.S.C. 102(e) as being anticipated by Bishop et al. U.S. '383. Applicants' arguments have been given due consideration, but, Bishop et al. '383 is still seen to disclose specific ester compounds not disclosed in Woodward '708.

5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was

Art Unit: 1621

commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(f) or (g) prior art under 35 U.S.C. 103(a).

6. Claims 26-45 are rejected under 35 U.S.C. 103(a) as being unpatentable over Bishop '383. Applicants' arguments have been given due consideration, but are held to be non-persuasive. Bishop et al. disclose compounds of general formula I to be useful in treating glaucoma and ocular hypertension. In said formula, R1 may be hydrogen, a cationic salt moiety, a C1-C12 alkyl, cycloalkyl or aryl and R2 may be chloro or trifluoromethyl. Additionally, specific ester compounds are disclosed which are not disclosed in Woodward '708.

7. Claim 46 and 47 are not rejected, but are subject to a possible interference.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however,

Art Unit: 1621

will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
